Tips for Using a Template:

1. Please do not alter the look of the templates in any way (colors, size, formatting, etc.).
2. Add slides and information directly into the downloaded presentation.
3. These presentations are in the industry standard 16:9 slide size format. Please do not change the size. Former 4:3 slide size is no longer considered best practice.
4. **"SAVE AS"** to avoid losing your work!
5. Download the templates from the "Attachments" below"
6. When to use which template:
