### Event/Long Event Signup

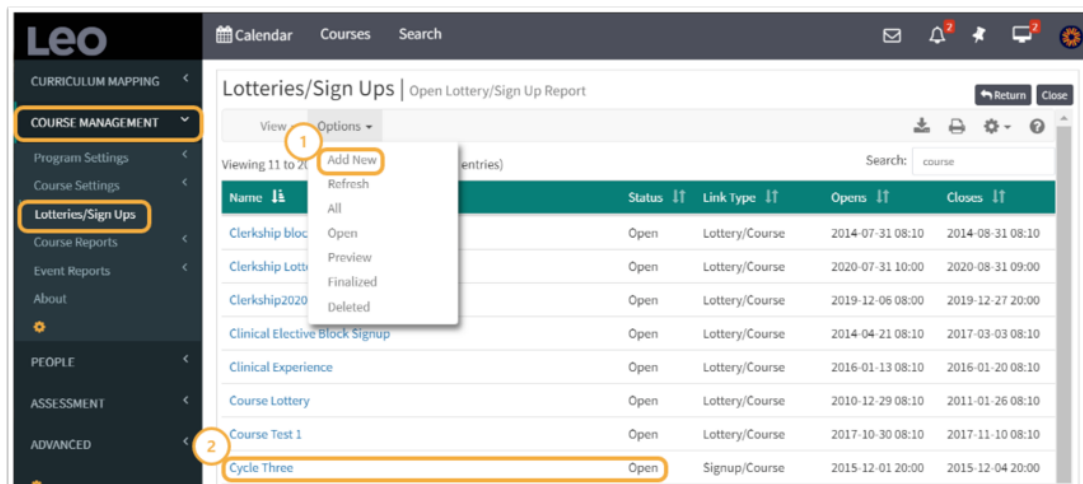

The **Signup** for an Event or a Long Event works in the same manner as the Lottery for a Course. Article on [Course Lottery](#)

1. **Add New:** create a new Signup
2. **Name:** Edit a recent Signup

Create your Events/Long Events first. Click here to learn how to [Add an Event](#) or [Add a Long Event](#). Before Elements can be added to the Signup for an Event or Long Event, the Events themselves must be created.

- The access to those Events or Long Events, in the Signup, will be limited to the Students who are enrolled in the Course itself.
- Leo assumes that if you are linking Events or Long Events to a Course, the attendees must be part of the Course to attend the Event.
- **NOTE:** If you do not want to limit the attendance to Students from a particular Course, then do not link the Event's Signup to a Course.
