## Using SFax - [Web Interface]

Jeff Clark - 2023-06-23 - Desktop Computing and Printing

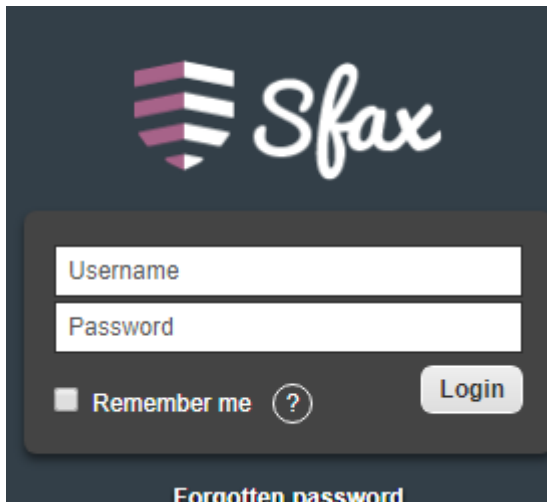

### **How to send a fax using Sfax (Web Page Method)**

*Note : This method requires and SFAX account and a web browser (Mac or PC).  
Please contact COMIT for assistance with creating your account.*

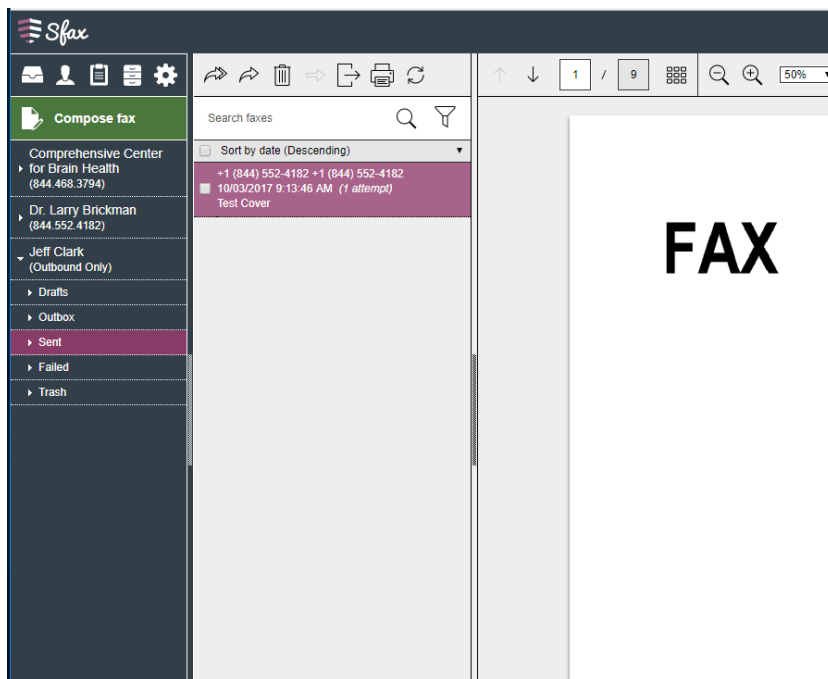

Video:

<https://fast.wistia.net/embed/iframe/meq8cr0sh5?autoplay=true&controlsVisibleOnLoad=true&popover=true&version=v1&videoHeight=360&videoWidth=640&volumeControl=true>

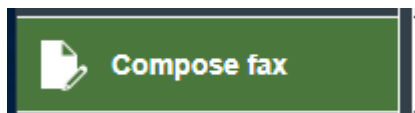

1. Visit <https://app.sfaxme.com>.
2. At this prompt, enter your user name (NetID, not email) followed by your password and select LOGIN

This will bring you into the portal page.

In the top left corner, select COMPOSE FAX

On the send page, enter the phone number(s) of the recipient(s). Select the +ADD button after each number. You can select the CREATE CONTACT if you would like to save this number for future use.

Recipients

561-297-1201|

+ Add

All contacts

<input checked="" type="checkbox"/>	Name	Orga
-------------------------------------	------	------

Create contact

Select document(s) to send by selecting UPLOAD DOCUMENTS under the Files section.

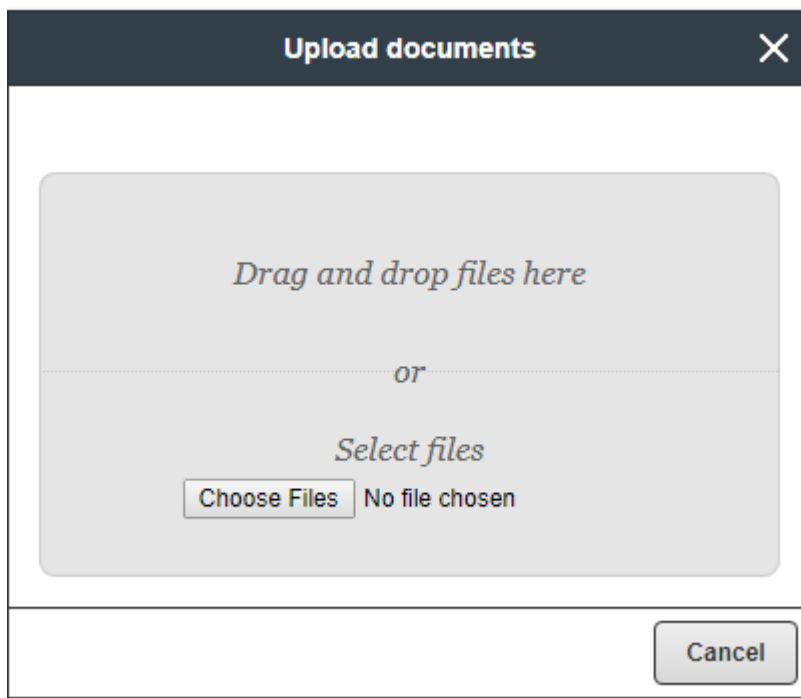

Files

Document

Add from library

Upload documents

Once prompted, drag the file to be sent to grey box where it shows DRAG AND DROP FILES HERE.

Select NEXT

You should now see the file listed in the Files section. Repeat steps 10-11 for any additional documents which you would like to send.

Select the Florida Atlantic University Cover Page (if not already selected)

Cover page	
	All cover pages
Title	
	Florida Atlantic University
	Sfax modern cover page
	Sfax simple cover page
	Sfax traditional cover page

In the left column, Enter the Subject, Reference and remarks which will appear on the cover page. It's a good idea to add the recipient's name in the Reference field.

Subject
Reference
Remarks

You are now ready to send your fax. In the top right corner, select the SEND button.

<input type="button" value="Save"/> <input type="button" value="Send"/>
---

Your fax has now been sent.
